

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Arthur Pappas
DOCKET NO.: 03-22423.001-R-1
PARCEL NO.: 08-14-203-008-0000

The parties of record before the Property Tax Appeal Board are Arthur Pappas, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property consists of a 39-year old, one-story frame and masonry dwelling containing 1,469 square feet of living area with a full, unfinished basement, a fireplace, and a two-car garage.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, two of the comparables are located in close proximity of the subject, and two are located approximately 0.8 to 1.0 mile from the subject. The comparables are one-story frame and masonry dwellings that are 28 to 35 years old. Photographs supplied by the appellant indicate that one of the comparables is not one-story but multi-level. One of the comparables has an unfinished basement; two have partial basements; and one has a full basement. Two of the comparables have central air conditioning, and one has a fireplace. Information on garages was not disclosed, but photographs supplied by the appellant indicate that at least three comparables have two-car garages. The comparables contain 1,516 to 1,800 square feet of living area and have improvement assessments of \$9.69 to \$10.01 per square foot. The subject property has an improvement assessment of \$14.69 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	6,131
IMPR.:	\$	14,426
TOTAL:	\$	20,557

Subject only to the State multiplier as applicable.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing one suggested comparable property that is located on the same block as the subject. The comparable property consists of a 38-year old one and one-half story frame dwelling with a full, unfinished basement, central air conditioning, and a two-car garage. The dwelling contains 1,087 square feet of living area and has an improvement assessment of \$18.55 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

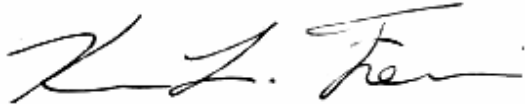

Both parties presented assessment data on a total of five equity comparables. The appellant's comparables one and four differed substantially in location from the subject, and the appellant's comparable two differed in design from the subject. As a result, these three comparables received reduced weight in the Board's analysis. The board of review's comparable differed significantly in size and in design from the subject and also received reduced weight. The appellant's comparable three was the most similar to the subject in age and physical characteristics. This comparable had an improvement assessment of \$9.82 per square foot, and the subject's improvement assessment of \$14.69 per square foot falls well above the level established by this comparable. After considering adjustments and the differences in both parties' suggested comparables when compared to the subject property, the Board finds the subject's per square foot improvement assessment is not supported by the most comparable property contained in the record and a reduction in the subject's assessment is warranted.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
